

INTERNATIONAL STUDENTS

Plan of Study for International students

International students will be able to utilize a summer term for internships, better aligning the graduate program with the University's mission. The on-campus programs operate on a calendar similar to a conventional quarter system: Fall, Winter, and Spring terms are "regular" academic terms during which students normally enroll full-time, and the Summer term is optional.

Many variations of this plan are possible, both with or without thesis. In particular, students may begin the program in any term, not just Fall. However, international students are required to complete two academic terms to be eligible for a non-study/internship term. This works perfectly for students that start in Fall or Winter. If an international student starts in Spring term, they will not be able to take an internship their first summer. They may forego the non-study/internship term or apply to have their non-study/internship term changed to a regular academic term. For an international student, only one non-study/internship term is allowed during the plan of study.

The non-study/internship term offers the opportunity for the student to work in an internship at a related industry, work on-campus, travel, or optionally register in further coursework.

Please refer to specific program information as you develop your plan of study. Note that the CE and EE concentrations, in the MS Engineering program, require a masters thesis which is non-credit bearing. However, in the other MS Engineering concentrations the masters thesis is optional and carries eight (8) credit hours.

Note that eight (8) credit hours constitutes full time for financial aid, and visa requirements, however, students may elect to carry a higher course load. While some students prefer to take one class at a time, this may create issues with financial aid or visa status.

Students enrolling in the on-campus MBA, MS in Engineering Management, or MS in Operations Management, may have prerequisite courses that will lengthen the plan of study.
